WOOD DUCK EVENTS

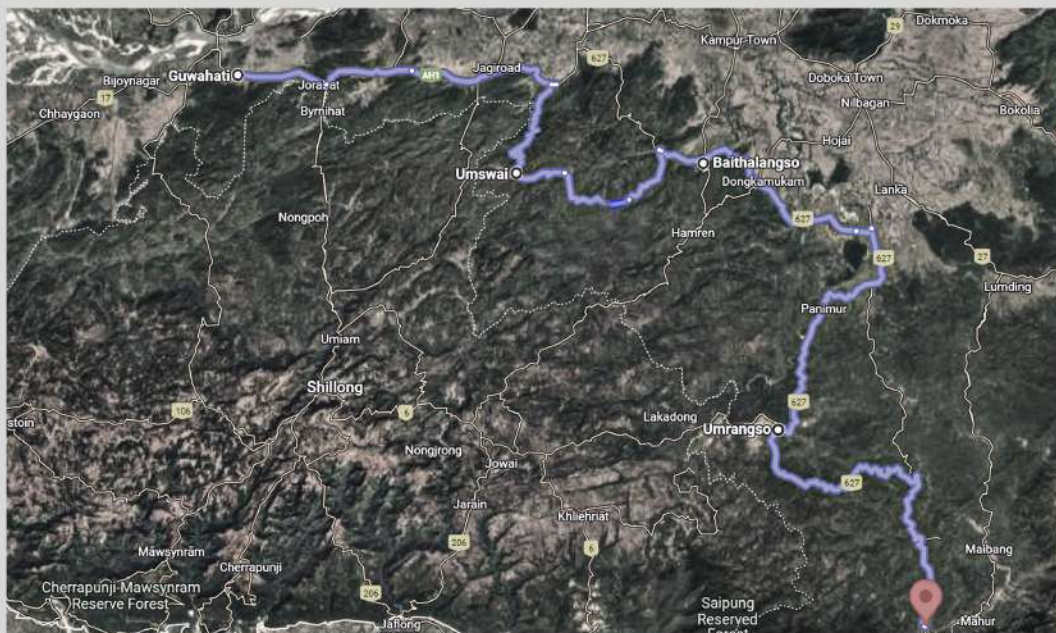

Wood Duck is an event company based in North East India dedicated to explore all sorts of events with special emphasis on adventure sports. Currently the company is working with an objective to promote adventure sports in Assam and North-East India. A company developed by group of individuals having decades of experience in Media, Events and Production. Realizing the potential of adventure tourism in the naturally rich area they have started this venture. Wood Duck Events is committed to wildlife conservation and developing sustainable tourism involving local communities, providing them with better livelihood alternatives.

MTB Assam- Karbi Anglong & Dima Hasao The White Ant Hillock Epic

Mountain Biking in short MTB is an annual mountain bike race under the initiative of Wood Duck Events. This is the first edition of the event where selected **30 riders from different states of India** will participate including **5 international bikers**. It will be a 3 days stage race covering the route from Guwahati to Haflong.

Why MTB Assam- Karbi Anglong & Dima Hasao ? The White Ant Hillock Epic

The main objective of MTB is to promote adventure sports in Assam and North East India. As Mountain Biking has received almost zero exposure in the region until now, we are aiming to encourage more people for participation and to inspire the youth to pursue biking as a career. MTB will increase the footfall of tourists which will ultimately promote the tourism sector of the state. Despite having mesmerizing scenic view and natural beauty, the state receives fewer visitors compared to rest of the country due to the lack of concentrating tourism initiatives. Events like MTB will bridge this gap. Local communities will also be benefitted as it will take countryside roads boosting hospitality and transportation. **The event will give a special identity to Haflong popularly known as the White Ant Hillock, the only hill station in Assam.**
